LAST DAY OF TERM

Room 2

In Term 2, we learnt about different types of small animals. As part of our learning we used science skills to make observations of worms. We used these observations to draw, describe and label a diagram of a worm. We also designed and made a habitat for a small animal. Each habitat needed food, shelter and other important features for the animal to survive.

kidsmatter

TODAY'S KIDS. TOMORROW'S FUTURE.

Hello Everyone

During Term 2 we kicked off our whole school 'You Can Read It' reading challenge. Our goal was to read 5000 books by the 23rd of June. A massive effort was put in by staff and students and we read **6868** books! The students also completed puzzle pieces to reflect on the books they had read. We have displayed these reflection puzzle pieces in the front office, please pop in and have a look.

The English Curriculum Team

Nationally Consistent Collection of Data for School Students with Disability

Our school is part of a national project about students with disability and/or learning difficulties.

We have been asked to provide data about the number and learning needs of children in our school. The name of the school and the name of the students will not be reported. Information about the different types of needs and the programs and resources the school uses to overcome barriers and support children with special educational needs will be collected.

We believe it is important to contribute to this because it will help the Governments and the Department develop better policies and acknowledge the level of resources needed in schools to meet the needs of all students in Western Australia.

If you would like to learn more about the Nationally Consistent Collection of Data for School Students with Disability you can visit this website:

Dear Parents/Caregivers

On Monday at our School Development Day the staff participated in professional learning regarding Kids Matter and YCDI. We looked at how to build up resilience in children to assist them with their emotional regulation. Thank you to Mrs Jenny Bruce, Mrs Chris Hartlebury, Mrs Nicola Franich, Ms Rachel Strickland, Mrs Narelle Seifert, Mr Kevin Hendry and Ms Delia Both. Mrs Edi Ulrich and Mrs Marjorie Stubbs were co-facilitators along with Mrs Kath Cambetis on Tracks to Two-Way Learning, specifically in regards to Ways of Communicating. The Tracks to Two-Way Learning package has been written for Aboriginal and Non-Aboriginal educators working together in pairs to improve the quality of teaching and learning for Aboriginal children and adults.

We have had a busy start to the term with swimming lessons commencing on Tuesday for Years Pre Primary-Year 3 and in Week 3 the Years 4 to 6's will start their two weeks of swimming lessons.

It is with sadness that we said goodbye to one of our valued employees. Julia Peverill has left to be with her family over East.

At the end of Term Two our Kindy students held a cultural open day where dot paintings, sand tracks, kangaroo and honey ants were favourites. Mrs Sambo invited local Aboriginal artists and leaders to run various activities. It was a successful afternoon and we thank Mrs Sambo for organising the day along with Mrs Lisa Young and the following guests; Vera Dimer, Lorna Willius-Jones, Breana Taylor, Edie Ulrich and Marjorie Stubbs. The dot painting will be displayed in the school at a location yet to be decided.

Miss Jess Watt will be taking our students to participate in the Cross Country on Friday of Week 2. Miss Toni Gallant will be taking our choir to Edward Collick Amana Living to perform for the residents on the 17th of August.

Mrs Katherine Grant
Principal

Cross Country Carnival

The last day of school saw our year 3-6 students competing in the Cross Country Carnival. The Year 3 and 4 students ran 1500m and the Year 5 and 6 students ran 2000m! That's a long way for little legs! Our students did an amazing job and kept persisting when their bodies were tired and they were running out of puff. Congratulations to all participants and well done to our top placing students. Our fastest runners have been invited to the Interschool Carnival to be held at the end of Week 2 where they will have the chance to push themselves and compete against the best of the goldfields.

You Can Do It!

Since coming back to school and getting straight into Swimming, we have had to use many of our YCDI Keys to be successful. RESILIENCE is one that will be in the spotlight this term and will be our focus for our up and coming You Can Do It! Day in WEEK 5. We plan to learn about the Habits of the Mind that will help us to become Resilient and have a growth mindset. Resilience means knowing how to stay calm and being able to stop yourself from getting extremely angry, down, or worried when something "bad" happens. It means being able to calm down and feel better when you get very upset. It also means being able to control your behaviour when you are very upset so that you bounce back from difficulty and return to work or play. Ask your children about it!
