

Dear Parents and Caregivers

Our school provides access to Department of Education online services. These enhance the contemporary learning opportunities available to students and the range of teaching tools available to staff to deliver the Western Australian Curriculum.

The Department's online services currently provide students with access to:

- individual email and calendar accounts;
- the internet, with all reasonable care taken by central office and schools to monitor and control students' access to websites while at school;
- online teaching and learning services such as Connect, web-conferencing and digital resources;
- online file storage and sharing services; and
- these online services at locations other than school.

Please note that while every reasonable effort is made by schools and the Department to prevent student exposure to inappropriate online content when using Department provided online services, it is not possible to completely eliminate the risk of such exposure.

You should be aware that the Department has the right to review, audit, intercept, access and disclose messages created, received or sent over Department online services. Logs of email transactions and internet access data are kept for administrative, legal and security purposes and may be monitored. Similar to other corporate records, emails and internet access records are discoverable in the event of legal action and are subject to provisions of the Freedom of Information Act 1992. (www.foi.wa.gov.au)

You should also be aware that general internet browsing not conducted via the Department's network is not monitored or filtered by the Department. The Department encourages close family supervision of all internet use by children in locations other than school, and strongly recommends the use of appropriate internet filtering software. Advice on managing internet use at home can found on the Office of the E-Safety Commissioner website (www.esafety.gov.au/iparent).

We are writing to seek approval for your child to be given access to the following additional online services.

Students and staff may not be required to use all of the websites and applications listed, however, these are available to them at South Kalgoorlie Primary School; not all information that can be provided to the third party service will be provided if it is not necessary.

If you agree to your child using these online services or their work/content being stored using these services, please complete the information on the following pages. Additional consent notes may be sent home as the Education Department processes the risk assessment of further Third Party Services.

Please contact the school if have any queries.

Updated Term 4, 2024

NOTIFICATION TO DISCLOSE PERSONAL INFORMATION TO THIRD PARTY SERVICES

The following third party services are being used in our school. Please contact the school if you have any queries.

Name of Service: Oliver Purpose: School library management web-based software. Information Disclosed: <ul style="list-style-type: none"> Class details Student username, email, photos or videos 	Data Location: Onshore (Inside Australia) <ul style="list-style-type: none"> School name
